Minutes of the Fifth Client Meeting

Trace Alert - Team 27

Wednesday 2ᵗʰ June 2021

1. Meeting Participants

Client: Nick Falkner
Team members:
Xilin Huang
Xuesong Ji
Kaiyang Xue
Yumeng Zhang

All team members were present at the meeting.

2. Time and Place

The Fifth client meeting for Trace Alert project was held on Zoom at 2:30pm on Wednesday 2 June 2021.

3. Topic

The front-end achievement display:

- Xilin showed the merged front-end of the application. All the input functions have been shown that are worked properly. Scan function for scanning QR code on another device and displaying the user's own code works properly. Bluetooth and geolocating function works properly.

The poster presentation:

- Kaiyang and Yumeng did a poster presentation demonstrating for the client to see if there is anything that needs to be improved. Client suggested that some words in several paragraphs need to be modified to make it more readable and avoid misunderstanding.

The demo presentation suggestions:

- Show the functions of the application such as login and how to alert
- Xuesong had asked for some suggestions on algorithm demonstration. Client suggested that we should do an actual contact for two devices and show what will happen if the risk level changed. Client also suggested shortening the server side calculation time, like every hour.

4. Tasks

• Improve the poster presentation.

• Increase the frequency of risk propagation on the server side.

5. Adjournment

The meeting finished at 3:10 p.m.
