Agenda for the Fifth Client Meeting

Trace Alert - Team 27

Wednesday 2nd June 2021

1. ## Apologies

   None.

2. ## Presentation

   Team 27 will present the new achievements on the project, which are mainly about:

   - Merged application
   - Improved Bluetooth and GPS functions
   - Implementation of the QR code
   - Thought about the demo and poster

3. ## Summary of the Last Meeting

   During the meeting on April 29th, we presented our back-end and front-end implementation, solution of the poison transmission and the alert trigger logic to the client. Professor Falkner praised our achievements and pointed out there are some progresses could be done on the poison transmission part (discussed via email after the meeting).

4. ## Requirements Elicitation

   We hope we can get feedback on the achievements we have done so far.

   We also wish to get some advice about the upcoming demo and poster.
